

The **Genocide** and **Crime against humanity** in 21st century.

Never again is happening again.

Please, protest for the current situation of **Uyghurs!**

We would appreciate if you please

Spread the information / Support our activities / Send e-mail to congress members of your country to ask for concrete actions / Stop the investment and business with the companies involved in forced labor / Support Uyghurs in your country / Hold events (testimony events, etc.) for Uyghur Genocide in your region and so on.

Rescue 3 million Uyghurs from concentration camps!

A horrifying ethnic eradication program that indiscriminately detains men and forces them into forced labor, forces sterilization of the remaining women, and forces children away from their parents is underway in China.

The US government recognized the issue happening in Uyghur as "genocide" and "crimes against humanity" in international law. On February 22, 2021, the Canadian House of Representatives adopted a resolution recognizing the Chinese government is doing "Genocide" against Uyghurs. Furtherly, on February 26, the Dutch Parliament also passed a motion to recognize it as "Genocide." Dutch is the first in Europe to recognize the "Genocide." According to the media, there are some trends in multiple European parliaments to make similar motions.

Any of the following acts committed with intent to destroy, in whole or in part, a national, ethnic, racial or religious group, as

such: (a) Killing members of the group. (b) Causing serious bodily or mental harm to members of the group. (c) Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part. (d) Imposing measures intended to prevent births within the group. (e) Forcibly transferring children of the group to another group. were defined as Genocide and china is the signed country to this convention. **A huge amount of evidences are indicating Chinese government's systematic crackdown on Uyghurs applies to all of these items.**

The "genocide accreditation" by the US government is a historical judgment made after several years gathering and analyzing information strictly, investigating a huge amount of evidences, and comparing the facts that rigorously confirmed with international law. This would be a good start and an opportunity to urge other countries to take concrete actions to end this nightmare and rescue more than 3 million innocent Uyghur people.

The largest concentration camp in human history!

Since 2017, **Xi Jinping regime in Uyghur (East Turkestan), has operated the largest concentration camp in human history.** Adrian Zenz, a German researcher who is the most familiar with Uyghur concentration camps in the world, has released findings that there are more than 1000 concentration camps in Uyghurs. The BBC reports that it has confirmed that there are also huge ones that can accommodate 130,000 people in one concentration camp. **More than 3 million people including many prominent cultural and business persons who have supported the Uyghur society are detained to these camps, and a nightmare that no unaffected Uyghur family is happening.** Both the number of concentration camps and the number of inmates has already exceeded the Nazi regime.

From secret investigation of Western media such as BBC, testimony of survivors, leaked internal documents and videos, it has become clear that people detained without any reason were banned from daily conversation in their native language and forced to abandon

their own culture and traditions in a **harsh environment where the contact with the outside world was completely cut off, and they been forced to be loyal to the Communist Party of China and Xi Jinping at the same time.**

Many testimonies have been reported that not only brainwashing education but also **criminal acts such as torture, maltreatment, systematic sexual assault on women, suspicious human experiments like forced administration of unidentified drugs and injections are rampant.** And family life-threatening testimony confirms that many people have died in concentration camps. There are also many reports confirmed that healthy young people are being secretly transferred from concentration camps to prisons throughout mainland China, and the number is hundreds of thousands. Also, **it is suspected that it is being targeted for organ trade** because it was mainly transferred near to the military hospitals and the whereabouts are unknown afterwards.

Involvement of world-famous companies including Japanese companies into large-scale forced labor

It has become clear that **Uyghur people who have been detained without any reason have been victims of forced labor involving world-famous companies.**

In March 2020, Australian think tank, Australia Strategic Policy Institute, has released a detailed investigation report that more than 80,000 Uyghurs transferred from concentration camps are forced into labor at factories in China that are part of the supply chain of at least 83 of the world's most famous companies. Among them, there are the names of several **Japanese companies (Hitachi, Japan Display, Mitsumi Electric, Nintendo, Panasonic, Sony, TDK, Toshiba, UNIQLO, Sharp, Muji, Shimamura, Kyocera)**. The Japan Uyghur Association sent questionnaires to these companies, but most of the answers were "no problem in transactions" and "not confirmed".

We ask Japanese companies, which have been suspected of being unintentionally involved in Uyghur forced labor, to act with the responsibility and be honest to erase the suspicion. **We also ask the shareholders and consumers to urge these companies to take concrete and real actions.**

Sterilization Genocide by contraceptive devices and forced sterilization

In June 2020, the US think tank "Jamestown Foundation" has published a research report that was compiled based on an analysis of public government documents, and this report clarified the real situation of "sterilization" genocide by China.

According to this report, **large-scale contraceptive devices and sterilization campaigns for Uyghur women have begun since 2017**, when large-scale detention of Uyghur men began. In 2018, 80% of intrauterine device (IUD) surgery performed in China was performed in Uyghur. In addition, the number of a more severe method, sterilization, performed in Uyghur in 2018 is seven times more than the average for China as a whole. In southern regions such as Kashgar and Hotan, the centers of Uyghur culture, **the natural growth rate of the Uyghur population has declined by 86% in just over two years.** By forcibly detaining men from each family, the remaining women were forced into an irresistible position and forced to contraceptives and sterilization.

Sterilizations, IUDs, and Mandatory Birth Control: The CCP's Campaign to Suppress Uyghur Birthrates in Xinjiang

In addition, the Nishinippon Shimbun published a report based on the official statistics, and indicated an abnormal situation that sterilization surgery and IUD-equipped surgery have significantly decreased since 2016 in China as a whole, while in Uyghur on the contrary, the number of sterilization surgeries has increased rapidly, and it has been confirmed that the number is increased 18 times (up to 190,000) in 5 years. Furthermore, while the 99% of people who have undergone sterilization are concentrated in the three regions of Hotan, Kashgar, and Aksu (80 to 90% of the population is Uyghurs) in 2018, it is clearly concluded that the inhumane population control policy are being conducted.

China, the country that is committing "Genocide" and "Crimes against humanity" is not qualified to host the Olympics

Xi Jinping regime, who is hiding the genocide and trying to hold the Olympic, is exactly like the Nazi regime of last century. China also committed a violation of the Olympic Charter, which prohibits discrimination, because they even detained athletes just because they are Uyghurs. **In order not to leave a stain on the history of the celebration of peace, countries around the world should unconditionally request china to allow the international survey teams and journalists to access Uyghur for the survey without any restriction.** If china can not do this, **Olympic should be boycotted due to humanitarian reasons.**

Difficult situation of Uyghurs in Japan

There are 2000 to 3000 Uyghurs living in Japan, and **most of them have been unable to even contact their families in their hometowns since 2017 and are suffering from desperate situations.** Some of them have been unable to even confirm the safety of their families for years, some of them have heard family members died in concentration camps. **Some people have had their daily lives severely hindered by the hostages of their local families,** forced to espionage by local authorities, and psychological pressures such as threatening phone calls.

The Chinese embassy in Japan is openly racist in refusing to renew Uyghurs' passports because they are Uyghurs. If they return to their hometown, the fate for the camp awaits them. The Chinese embassy refused to renew their passports, making it impossible to stay legally in Japan and return to their homeland for fear of internment, and more and more people are unavoidably applying for refugee status.

Our association accepts enrollment and donations from everyone. We have received many enrollments and donations from fellows in many countries, and we are making the operation of this association smoothly. Thank you very much.
